

AP Biology Summer Assignment 2017

The textbook that we will use is Biology In Focus (AP Edition/2nd Edition) by Campbell. You will be assigned a hard copy of the textbook in the fall, and you will have access to an eText version as well. You can use the eText to complete your summer assignment. If you would prefer to use the hard copy to complete your summer assignment, please contact the school so that someone from the front office can coordinate getting one from my classroom to assign to you. Directions for accessing the eText version are below.

Assignment:

- Read Chapters 1 and 2 in textbook
- Complete Active Reading Guides for Chapters 1 and 2.
- Be prepared to take a quiz on this material on the second day of school.

Accessing eText version of textbook:

- Go to the website: www.pearsonschool.com/access
- Enter the letters 'SSNAST' in the box and click the Enter Code button.
- Select Covered Titles, then choose Science and choose your title: Campbell Biology in Focus (Urry) 2e AP Edition Mastering Biology
- Select Student Registration.
- Read and accept Pearson's License Agreement and Privacy Policy.
- Creating your Pearson account: Select No for the question: Do you have a Pearson Education account? Once you have created your Pearson account, enter the student access code: SSNAST-JIDDA-STYKA-SCENA-TRASH-PSHAW
- Enter your profile: Fill in your personal information and school information (you will have to use "other").
- Create a Pearson Education Account by entering a Username and Password (Make sure you don't forget your username and password!)
- Use the Log In Now to enter the site, and then enter the Course ID: MBLEWIS20416
- Now you will have access to the eText! You will see the eText tab at the top of the page. That is the only tab you will need to use this summer; we will explore the rest after school begins in the fall.

Please feel free to contact me by email at llewis@parrottacademy.org if you have any questions before the school year begins.
